

Winter is the time for feeding our animals and feeding our soul.

We recently returned from giving several presentations on social order buffalo. We had been invited to speak in South Dakota at the Sitting Bull College workshop on bison care.

We also gave two presentations at the request of Bison Vision. The first was in Livingston, MT in January and the second was in Bozeman, MT last week.

We very much enjoyed being a part of both group's philosophies and events

But all activities gravitate back to the farm. Feeding buffalo this year had been challenging. Snow has been on the ground since November. But the excitement we see in the buffalo when we come out with their meal everyday is passed on to us.

Hope everyone's winter was fine.
Bob & Susan
